By Helmut J. Schwarz, Heinrich Hora : Laser Interaction and Related Plasma Phenomena, Vol. 3B original article clinical risk factors dna variants and the development of type 2 diabetes valeriya lyssenko md anna jonsson msc peter almgren msc instructions for use the html version works with all tools of your browser for searching press ctrl f back brings you to previous view etc images with high Laser Interaction and Related Plasma Phenomena, Vol. 3B:

As was the case in the two preceding workshops of 1969 and 1971 the Third Workshop on Laser Interaction and

Related Plasma Phenomena held in 1973 was of international character The main purpose was to review the advanced status of this particular and turbulent field of physics as it had developed vigorously in all major laboratories of the world since 1971 Due to recently accelerated advancements it was hardly possible to present a comprehensive tutorial review
