By Hector Ferral, Ferral, Bjarnason : Synopsis of Castaqueda's Interventional Radiology Synopsis of Castaqueda's Interventional Radiology:

Both residents and practicing radiologists not specializing as interventionalists will appreciate this concise practical

version of Dr Castaneda's interventional radiology text The most common interventional procedures used for adults are covered providing basic important concepts from Castaneda's parent text Emphasis is on the therapeutic rather than diagnostic aspects of interventional radiology Readers will get the generally accepted indications and guidelines
