From CRC Press : Diagnosis of Non-accidental Injury: Illustrated Clinical Cases oral surgery dental update march 2002 89 trismus aetiology and differential diagnosis intra articular 1 ankylosis extra articular 2 arthritis synovitis 31 why was this guideline produced the purpose of this clinical practice guideline was to provide guidance on the diagnosis and treatment of adult individuals Diagnosis of Non-accidental Injury: Illustrated Clinical Cases:

Recognition and diagnosis of child abuse and neglect creates an important foundation for the protection of children

Physicians and other healthcare providers have a fundamental role in this process and need to be confident that they can identify correctly the signs and symptoms that provide clues to non accidental injuries resulting from child maltreatment. Diagnosis of Non accidental Injury Illustrated Clinical Cases is an invaluable tool to aid professionals. This easy to read book helps create a foundation for the diagnosis and treatment of child abuse or neglect through clear and concise case studies. This book does a great job of presenting a variety of case studies accompanied by key images. The in
