The book presents recent developments and application of fluorescent protein labelling techniques and two photon

molecular probes It introduces research of super resolution localization microscopy photoacoustic molecular functional imaging and optical molecular tomography for small animal in vivo The book illustrates optical labeling techniques and imaging instruments and their application in biological studies About the Author Qingming Luo Huazhong University of Science and Technology Wuhan PR China Jingui Qin Wuhan University Wuhan PR China Liping Wang Shenzhen Institutes of Advanced Technology Chinese Academy of Sciences Shenzhen PR China Yanyi Huang P
