rhino laryngology vol 65 advances in oto rhino laryngology Otosclerosis and Stapes Surgery (Advances in Oto-Rhino-Laryngology, Vol. 65):

Otosclerosis is a disorder causing a hardening of the middle ear bones which leads to a progressive hearing loss. Internationally renowned experts met in Saas Fee Switzerland in 2004 to discuss otosclerosis and stapes surgery and they have subsequently been invited by the editor to present their findings in this publication. From basic to clinical research, all relevant topics such as epidemiology, genetics, histopathology, molecular biology, and virus etiology are de
